

Abstract Submission Guidelines

Abstract Submission

What are Abstracts?'

Abstracts are brief summaries of the presentations. The abstract should include background and aim of the project, brief description of methods, results and a conclusion.

Abstracts essentially answer four questions:

1. What was the problem and the aim of the project?
2. Which methods did the author(s) use to find a solution to the problem?
3. What was discovered as a result of the research or practice?
4. What can be generalized or learned from these results?

Criteria for Review

The following criteria will be used to ascertain that the abstracts are acceptable.

1. Knowledge contribution: abstract builds on and expands previous work/literature/theories or shares valuable experiences from practice.
2. Innovativeness: material shared is up-to-date, innovative and will lead to future advancement in healthcare or the sciences.
3. Clarity: The abstract is clearly presented and includes all essential information.

Type of Abstracts Encouraged

- Research (Qualitative, Quantitative, Mixed, Action, Experimental, etc.)
- Clinical Audits
- Case Studies
- Reflections
- Literature Reviews
- Systematic Reviews
- Projects

(Only Genuine and Novel Work will be accepted)
